Consultations

The Quickening

As the spring season progresses, the pace will quicken. For many, it started off on a less than speedy tone. Ambitious Mars traveled retrograde from January 23rd to April 13th in purifying Virgo. **If you didn't get all the cleansing and organizing done during this cycle, there is still time because the god of war is moving through Virgo until July 3rd.** In addition to healing your physical body or unloading the clutter from your home or office, this is a good time to look at the service you provide in the world.

As a goddess, Virgo steps into higher service for the good of humanity. In the spiritual branch of astrology, known as esoteric astrology, Virgo is ruled by the moon. **You can tune into the higher needs of the world to gain intuitive insight before everyone else.** Then, you can develop the service, product or class that will be ready for people by the time they realize they need it. You also benefit by looking at your life to see where you are truly serving vs. where you have gone into inappropriate sacrifice.

Venus Retrograde &

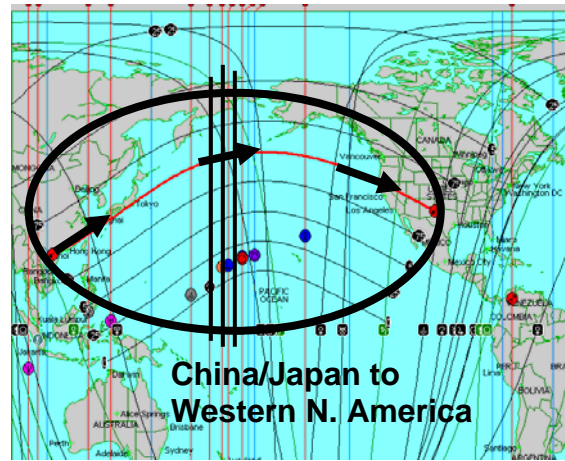

A Rare Transit Across the Sun

Take particular note of your love and money dynamics as Venus turns retrograde May 15-June 27. Your values are up for review. You are stepping up into a higher balance. She also makes a very rare crossing in front of the sun on June 6th. This happened last in 2004, and will not occur again for over 100 years.

The key is to open your mind to new possibilities. You are not trapped in worldly limitations if you raise your consciousness beyond limiting vibrations.

(See pg. 4 for more on Venus ♀). Forecast continues on pg 2,

Solar Eclipse May 20th EARTHLINESTM™ (ACG)

Eclipses activate energy in the region they pass through, often bringing news that is easily seen in the media. The May 20th Solar Eclipse begins in China, passes over Tokyo, peaks in the South Pacific, then passes over Mt. Shasta on the way to the USA Southwest. Sometimes the news involves politics and economic factors. But it is also common to see earthquakes, erupting volcanoes, or strong weather patterns. An easy rule of thumb is to use three months before and after an eclipse as its range of influence, but an astrologer named Johndro showed that strong eclipses can be effective for much longer periods of time. Although this is not a particularly strong eclipse, the early indicators were seen through strong earthquakes in the South Pacific and floods in Hawaii.

On a personal level, find the area of your natal chart containing 1° Gemini to get a hint about effects on you.

The Wesak Full Moon on May 5th is in the powerful middle degrees of Scorpio and Taurus, and aligned with the star Zueben Elgenubi in the constellation Libra. This star is associated with making positive social reform for no personal gain. The philosophy surrounding this full moon is that it is a time when the Buddha descends into the physical plane to allow those who are open to soak in the higher energy. **Regardless of your philosophy, the days surrounding this full moon are excellent for opening to deeper levels of your inner being.**

Spring brings other planetary events to help you pick up the pace. The Solar Eclipse on May 20th in Gemini is part of a series of eclipses in Gemini and Sagittarius that started back in December 2010 and will mostly finish later this year. **These adaptable signs stimulate you to look at your beliefs and how you think about your world.**

(See pages 1 & 6 for specifics on the solar eclipse).

The Lunar Eclipse in Sagittarius/Gemini follows on June 4th. Several planets are interconnected in a pattern called a Grand Mutable Cross. Although you will feel pulled apart initially, ultimately you will practice flexibility and reintegrate your life in a more cohesive way. (See detailed chart on page 11). Sagittarius has a lust for life and seeks adventure. **Give yourself permission to go off on an adventure.** Remember that you are here on this planet for more than working, paying bills, and being responsible. Have fun and explore different philosophies.

Jupiter enters Gemini

June 11, 2012 to June 25, 2013
Big & Quick!

Another big event leads the way into summer when expansive and optimistic Jupiter moves into the quick sign of Gemini for the next year. **You can expect your life to speed up (and you thought it was already too fast!).** Although this combination is not Jupiter's favorite place to be, it will stimulate a feeling of restlessness, creating plenty of change in the year ahead. Think about the changes in your life the last time Jupiter was in Gemini, July 2000-July 2001. Jupiter represents taking a risk on yourself to step into the highest philosophy, and Gemini helps you communicate it in larger ways. As an example: Early in the previous cycle in September 2000, the United Nations held the largest ever gathering of world leaders in the Millennium Summit to free people of extreme poverty, aids, etc. More on Jupiter at Summer Solstice.

War in Iran?

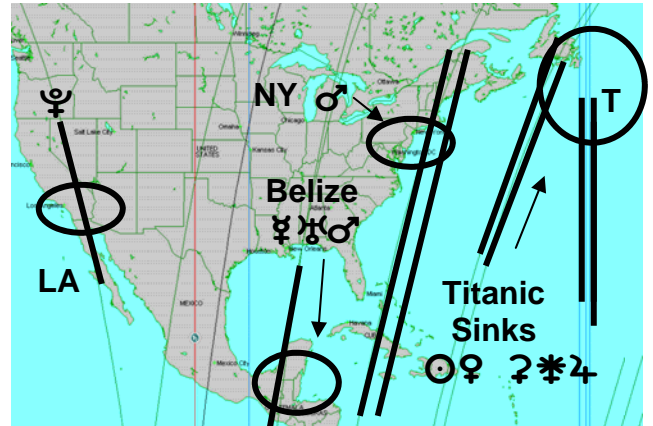

"Not now" is the quick answer for this small space. There are a couple of charts for Iran and Israel, so the astrology of countries can get a bit complicated. The chart of the Islamic Republic of Iran (4/1/79, 3PM Tehran) has a 12° Aries Sun. Beginning in the spring of 2013, revolutionary Uranus will sit on the life force of Iran bringing big changes. This could represent a change in leadership, but President Ahmadinejad's chart looks ripe for change in 2014. The wild card is Taurus Israel with communications planet Mercury in Gemini active this summer, and natal Uranus in Gemini active spring 2013. Lots of talk right now, action to follow in Spring 2013 or 2014.

(ACG) **EARTHLINES™** for **Leonardo DiCaprio**

Scorpio Sun, Libra Moon 11/11/74, 2:47 AM LA, CA

The spring movie re-release of *Titanic*, a film that DiCaprio originally turned down, provides insight into how a **person's personal power lines can work for them— even when they do not live in the region where the lines are located.** The *Titanic* sank near Newfoundland where Leonardo has energizing Sun and Venus lines. Venus rules romance, so his role involved relationship. **The Sun makes you a star.** Jupiter was in the region of the sinking of the *Titanic*, and it rules things that are big like natural disasters. It also includes how big the part turned out to be for DiCaprio. It was the highest grossing movie at the time.

He was born in Los Angeles under a Pluto line, representing power. It is interesting to note that he was ejected from the *Romper Room* cast at age 5 for being disruptive, a possible Pluto problem. His power line in Iowa where he filmed *What's Eating Gilbert Grape?* is Chiron, the wounded healer. This reflects the part he played as a mentally handicapped brother to Johnny Depp. He also owns an island off the coast of Belize where he is developing an eco-resort. In the area, he has Mercury and Uranus power lines, representing innovative ideas. He also has an ambitious Mars line both in Belize and his other home in Manhattan. He exhibited his male warrior energy in *The Departed*, where he was an undercover policeman in a Boston crime mob. In the Mid East, he played a spy in *Body of Lies* under a deceptive Neptune line.

As you can see, a person's power lines work whether they live in an area, do business in a region, or in this case, make movies based upon a region where you have ACG power lines.

It will be interesting to watch Leonardo in the months ahead because the planet Saturn is moving back and forth across his natal Mercury and Uranus in the sign of relationships, Libra. He is well known for dating young models, yet Saturn has a stabilizing characteristic as it passes over erratic Uranus. But we may have to wait until Saturn moves into his Scorpio Sun sign in October!

Great Gift!

Venus Retrograde & TR Sun

May 15-June 27, 24-7° Gemini

Venus turns retrograde less than any other planet, only about every two years. It will also transit the face of the sun on June 6th. **On the mundane level, this is a good time to explore new ideas regarding relationships and finances.** This can include learning something new to help you manifest your needs and desires, or just improve diplomatic communications skills. In spiritual astrology, Venus and Gemini are in a happy relationship called "esoteric rulership."

When operating in a spiritual service way, they move you to a higher state of balance, helping you experience greater beauty and harmony in the world. This 5th Ray energy is associated with healing as it is tied to Ascended Master Hilarion and Archangel Raphael, both known for healing

In the Seven Ray metaphysical philosophy (www.astromark.us/soulraydefined.htm), the 5th Ray brings the metaphysical down into the physical so higher principles can work in a concrete way. See more Seven Ray information on pages 7 & 8.

Venus transiting the Sun suggests a realignment of your life force and values to make sure they work in harmony.

Soul Rays for Edgar Allan Poe Jan 16 1809 , 1AM LMT Boston, MA Sun in Capricorn, Moon in Pisces, Scorpio Ascendant (Data rating C)

A soul ray is a universal frequency that each person incarnates on to provide opportunities for growth and service in this life. Where your zodiac sun sign is of our solar system and has a lot to do with personality, a soul ray is more about your spiritual mission.

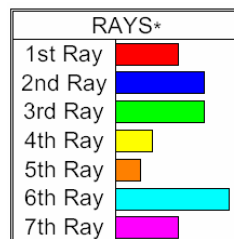

The movie "The Raven" comes out this spring starring John Cusack. It uses Edgar Allan Poe's macabre poem about a man's descent into madness, wanting to simultaneously remember and forget a lover. Poe had his own demons in life, ranging from poverty, drugs/alcohol, marrying a much younger 13-year old cousin, and an oftentimes incoherent path to death. **E.A.P.'s natal chart is strong in the 6th ray of devotion and idealism.**

Neptune is associated with the 6th Ray, and that includes substance abuse on the low level and visionary mysticism on a higher level. Poe seemed to work the full range in his life. His chart also had 3rd Ray energy that communicates abstract and esoteric concepts into a language that all can understand. The eerie sound of rapping and the raven saying "nevermore" definitely gets a feeling across to the reader. It is interesting to note that this movie is coming out as wounded-healer Chiron begins transiting Poe's Pisces natal Moon and Venus. John Cusack has a Cancer Sun (6/26/66), and dark, underworld Pluto is currently opposing his Sun as *The Raven* premieres. Pay attention to the promotional interviews to see if the making of the movie brought up any deep emotions in the actor. Pluto tends to dredge up the bottom of the swamp, and it is activating Cusack's emotional Cancer Sun.

On the mundane level, Gemini is about opening your mind to new possibilities. It is a curious and adaptable sign. **The natal chart house where this eclipse lands will give you a hint about where you need to be mentally flexible and willing to try life in a new way.** If the eclipse lands in your 7th house, it is time to communicate and be adaptable in your relationships. In your 11th house, it is time to expand your circle of friends and associations. (For a complete list of house meanings, download the Free Astrology Primer in the left column at www.astromark.us/reports.htm).

On an esoteric level, Gemini is associated with the planet Venus and the 5th Ray of concrete knowledge and science. It's job is to bring the metaphysical into the physical to help you bring a higher set of values and more beauty into your life (see 7 Rays on page 8). **The main thing to remember is that a solar eclipse is a new moon, and that means new beginnings.** The sun is blocked out to help you get in touch with deeper, soul-level priorities. **Take some time near the eclipse, perhaps a short trip, to open your mind to new ideas for your future.**

Solar Flare Maximum

The sun spot cycle is heading towards maximum, probably in 2013. It is a bit challenging to work with coronal mass ejections in astrology due to the inconsistency of the cycles, peaking approximately every 11.1 years. There are a variety of opinions about the effects of sun spots, ranging from increased irritability, weather changes, and effects upon the stock market. There is a metaphysical opinion that suggests that solar flares shake the pineal gland, not unlike the effects of a MRI x-ray machine. Many people suggest that the pineal has to do with our senses, including intuitive abilities. Although this solar maximum is the weakest in 100 years, it would still be good to see how you feel when they occur. Solar Flares need astrological research.

Spring Animal Totem Energy

I like to use the Animal Medicine Cards to see what animal energies are here to help us for the next three months. Two cards came out for spring equinox:

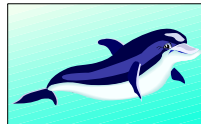

Bat and Dolphin

A keyword for bat is rebirth.

Where do you need to let go and move onwards?

Bat calls upon you to use your intuition to see what is ahead of you. Bats send out their sonar, then listen to what comes back to them. Call in bat energy for a message about the three months ahead.

Dolphin represents the core life force called Manna. It urges you to tap into the natural source of abundant energy in the universe and play with it.

For the three months ahead, tune into the subtle forces of the universe to gain insight into your future direction. Be willing to play with the energy and enjoy the process rather than taking life too seriously.

Animal Medicine Wheel Consultations

Learn about your animal power totem's that are here to help you in this life or surrounding certain questions or issues. This work uses the popular Animal Medicine Cards with some added animals. It is done in a sacred way using seven directions. Mark was trained in medicine wheel work by Sun Bear during his gatherings many years before Sun Bear made transition.

FIXED STAR REPORT

The ancients focused more upon the stars than the wandering planets in their astrology. Modern astrology is finally bring back some of the old methods.

A packaged fixed star report is now available. It contains two reports on stars that were specifically important to your natal chart, a map with star power lines for your country or region (like ACG), and some other information on stars that require some astrological knowledge (like understanding aspects). The written reports are very user friendly for all levels of astrology. The map portion requires you to look up letters on your map and read key phrases in a brochure, also easy. The aspect section is more complicated, but explained for people who know some astrology. For this aspect part of the report, you would need to know how to combine the meanings of the planets and stars, so it would be helpful to be a novice level astrologer.

This report provides an interesting way to begin learning about the stars and their effect upon you.

\$50 includes USA mailing (add \$5 for internet mail)

SEVEN SOUL RAY CONSULTATION

Esoteric Astrology

Opening to Enhanced Dimensions of Your Spiritual Service!

My passion in life is to help people to connect with their soul path in the most dynamic way possible. **The Soul Ray reading is designed to activate a greater expression of your soul and soul service in your life.**

What is a soul ray consultation?

You will learn about your soul and personality rays. This information is based in the channellings of the Tibetan Master Djwahl Kuhl through Alice A. Bailey. Understanding the ray upon which you have incarnated helps you to work more fully with your energies of soul service. This reading is best for people who have reduced the need to ask "what's in it for me?" and increased the need to know, "what is my soul purpose and spiritual service in this life?"

The reading provides your soul and personality rays and an esoteric interpretation of your astrology chart (a unique focus on your soul purpose with reduced emphasis on mundane issues like love and money). The reading is taped. By choosing to experience this reading, you are calling upon your soul to express an increasing manifestation of the Divine Essence in your life. You are choosing to step into higher levels of soul service.

This is an excellent tool for those who are shifting out of attachment to the material world in the direction of soul service. It's time for each of us to take increased responsibility for expressing our Divine Nature in our daily lives.

See 7 Rays Article on Page 8
And Ascended Master photos on Page 13

Soul Rays for MAHATMA GANDHI

This Great Soul brought independence to India through his Seventh Soul Ray. A person activates their soul ray when they choose to serve a higher good beyond their small self. The 7th is the ray of *transmutation* (changing energy that is less than loving into Love). It is the energy of magic. A 7th Ray person Initiates a New Order. Gandhi's soul purpose was to transform worldly conditions.

Gandhi's Personality Ray was the 5th Ray of Concrete Knowledge and Science. He had a systematic approach to his work which was especially shown earlier in life as he studied to become an Oxford graduated attorney.

"Gandhi continues what the Buddha began, In the Buddha, the spirit of Love sets itself the task of creating different spiritual conditions in the world; in Gandhi it undertakes to transform all worldly conditions."

~Albert Schweitzer

Violet Flame

Is there something you would like to take to a higher frequency in your life?

TRANSMUTATION USING THE VIOLET FLAME OF THE 7TH RAY

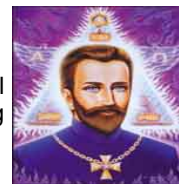

The **VIOLET FLAME** is a tool to help you experience greater frequencies of your essential soul vibration in your daily life. The Violet Flame is energetic alchemy, a method for transmuting (raising) lower vibrations into the energy of Light. (See 7th Ray Esoteric Astrology on page 8)

TRANSMUTATION

Here is the way I do it, or adapt to your own style.

- 1) Do protection prayer. Call in St. Germain, Ascended Masters, your guides & healers, etc.
- 2) Set Conditions (I like to say that this is for the Highest Good, which means that it is for the highest good of everyone)
- 3) Set Intent of your objective. (Ex: I raise my vibration to that of God/Creation)
- 4) Invoke (call in) the Violet Flame. Surround and enfold yourself in the burning Violet Flame. We transmute darkness into Light
- 5) Feel how good it is to be working in the situation in its highest form. (This is important. Take the time to really get the feeling of what you are bringing into manifestation: healing, right relationship, prosperity, etc.)
- 6) Give thanks. Release the Violet Flame and those who have helped. It is done. Live in your new Truth.

St. Germain is pictured here. He is associated with the energetic alchemy of transmutation and the Violet Flame. Laminated pictures are available for your meditation altar. **See www.astromark.us/soulraymasters.htm or call for brochure.**

Astrology and Intuitive Consultations by Mark Dodich ~since 1980

Finding Soul Purpose Through the Seven Rays

With some of the disturbing events going on around the world, many people are asking “what am I doing on planet earth?” One perspective on this age old question is that it is time to step up into greater responsibility in providing our spiritual service.

A method to better understand spiritual purpose, called the Seven Rays, comes to us through the ancient mystery schools. **Knowing your personal rays helps you to more fully activate the speed button for your spiritual path.** A ray is simply a frequency of vibration. If you were to call Oneness, white light; and you wanted to create a planet, person, or a metaphysical journal, you would need to step down this Oneness by providing the illusion of duality (yin-yang, positive-negative, etc.) The ancient mystery school teaches that you would filter the white light through some kind of a cosmic prism. Like a rainbow, seven different frequencies of vibration emanate from Source. Each person incarnates with a soul and personality ray. Triads are zodiac signs associated with each ray.

Ray One: The Will of God. Triad: Aries, Leo, and Capricorn.

This is the inner battle to create Oneness within yourself. You learn self-confidence, the ability to pioneer new paths, and to develop personal power that is aligned with the Highest Source. A negative trait could be misuse of power. This ray is associated with the constellation of the Great Bear. El Morya is considered to be the Chohan of the First Ray, with Lord Michael as the archangel.

Ray Two: The Love of God. The Love of Wisdom. Triad: Gemini, Virgo, and Pisces.

The second ray represents the creative energies. You learn unconditional love and help people to heal by enfolding them in the One Source of all that is. Jesus and Buddha are thought to have incarnated on this ray, and many believe it is the energy that must be used to exit the wheel of continuing incarnations. A positive use would be to release the suffering of humanity. Lanto is considered to be the Chohan and Jophiel the archangel of this ray. It is associated with the star Sirius.

Ray Three: Active Intelligence. Abstract Wisdom. Triad: Cancer, Libra, and Capricorn

. People with a strong third ray influence are like translators. They translate abstract and philosophical concepts into terms that can be understood by all. These are the philosophers, astrologers, and communicators. They can become intellectually isolated if they become overly focused on the third ray. Paul the Venetian is thought to be the Chohan with Chamuel as the archangel. The Third Ray is associated with the Pleiades constellation.

Ray Four: Harmony through Conflict. Triad: Taurus, Scorpio, and Sagittarius.

They often have artistic talents and bring beauty to the world. Fourth ray people often experience difficulties in the first half of their life. This is to teach them to find their inner source of truth and harmony. As they find their way more quickly back to center, they often become counselors for others who recognize their sense of inner peace. Negatively, they can get lost in melodrama and mood swings. The Chohan is thought to be Serapis Bey with Gabriel as the archangel.

Ray Five: Concrete Knowledge and Science. Triad: Leo, Sagittarius, and Aquarius.

A fifth ray person does not have to be a scientist. They are the people who use a systematic process to bring metaphysical truth into concrete reality. They help people to utilize these higher forms of energies. Positively, they help merge the higher and lower mind. The Fifth Ray Chohan is Hilarion with Raphael as the archangel.

Ray Six: Devotion and Idealism. Triad: Virgo, Sagittarius, and Pisces.

Sixth ray people focus on a goal, allowing nothing to get in the way of achieving that goal. This ray is considered to be the ray of Christianity, and the outgoing ray energy on planet earth. Many of these people are “sinner turned saint.” They overcome lower orders of the physical to express the highest ideals. A number of years ago, charismatic Jim Jones killed many of his followers in order to take them to the Promised Land. Positively, Martin Luther King helped people see beyond the limitations of prejudice in order to achieve higher ideals. Nada is thought to be the Chohan of this ray along with archangel Uriel.

Ray Seven: The initiation of a new order. Ceremonial magic. Triad: Aries, Cancer, and Capricorn.

It is generally agreed upon that this is the incoming ray of the New Age on planet earth. The energies of transmutation and the Violet Flame are intrinsically tied to this ray. The seventh ray changes lower frequencies of energy into higher frequencies. They must accept responsibility to share with those whom their destiny is entwined. Negatively, they can abuse power for personal gain. Positively, they become the master metaphysician helping planet earth to evolve into its highest frequency of vibration. Most people agree that Saint Germaine is the Chohan and Zadkiel is the archangel of the seventh ray.

Spring Equinox March 19/20, 10:15 PM PDT

There is an abundance of energy in one corner of the zodiac in a chart cast for the next three months. Pisces asks you to tune into your higher vision and trust your intuition. Aries stimulates you to take action and be willing to pioneer a new path. Taurus wants to manifest its values and desires in a down to earth way. The Grand Cross (in red) tends to pull you apart to help you reintegrate yourself, but adaptability is required. The Grand Earth Trine will help you if you are willing to release old paradigm thinking and create a new way.

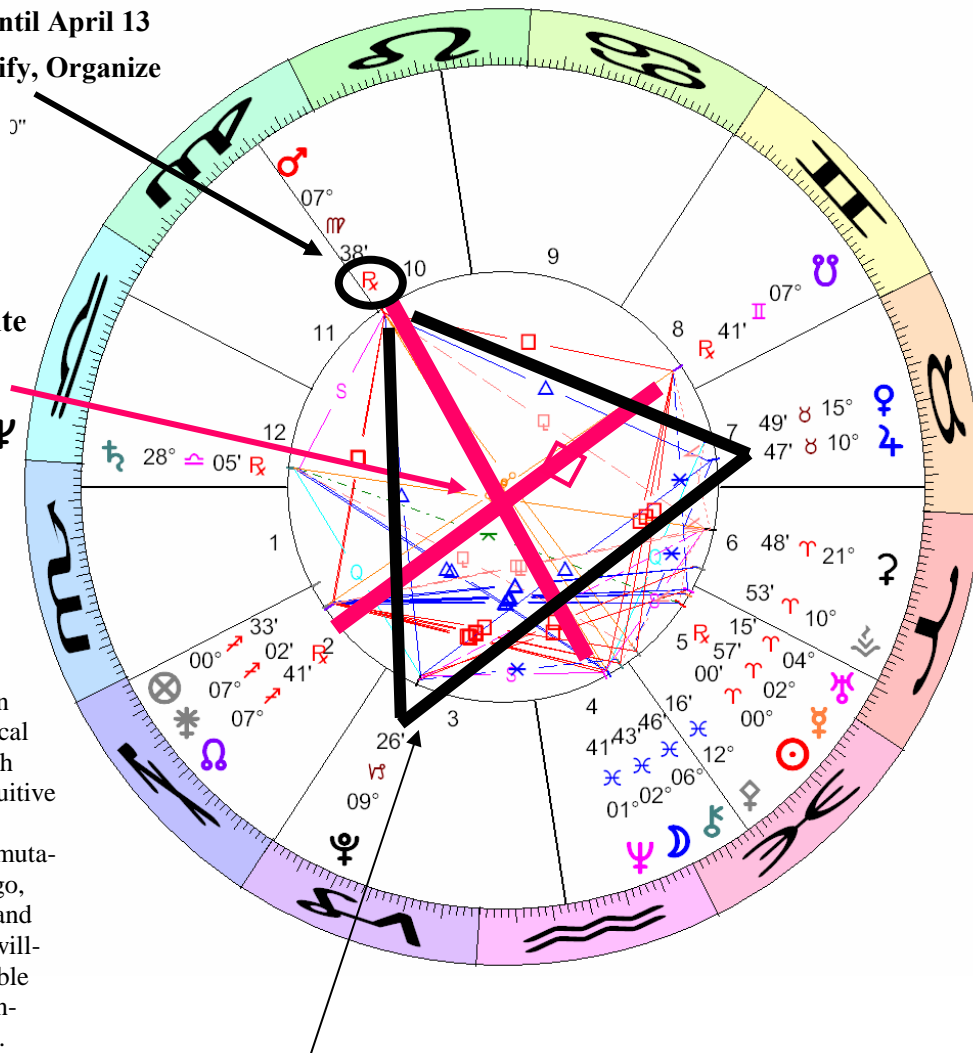

Mars continues to be retrograde until April 13

Cleanse, Purify, Organize

Mars ♂ in Virgo opposite Chiron ♄, Moon ☾ & Neptune ♃ in Pisces -

And challenging soul destiny nodes ♋♏

Lessons ahead in balancing practical action needs with emotional & intuitive spiritual needs. They are in the mutable signs of Virgo, Pisces, Gemini and Sagittarius. Be willing to be adaptable and flexible to incoming changes.

▲ Grand Earth Trine

This is a harmonious relationship between planets that give you a lot of help. Pluto in Capricorn helps you let go of that which you no longer need so you can put your energy into that which helps you build your power. Jupiter and Venus are in Taurus, a very lucky combination that was exact around March 13th. Taking a risk on yourself to bring your higher philosophy and values into manifestation are supported. The third point is Mars, currently retrograde, in Virgo. You are called to simplify your life, get rid of clutter, and generally get organized for incoming projects.

Spring Equinox 2012 Power Lines (AstroCartoGraphy®)

A map drawn for the three months that follow Spring Equinox show “hot zones” (circled in red) where there is commonly increased area of activity. This can include earth changes such as volcanoes, earthquakes, major storms, and political shifts. If you watch the news, it is likely that you will see activities in these regions. The red zones show explosive Uranus (earthquakes, revolutions), Mercury (media, quick events, wind), and the Sun (the soul identity of a country or continent). At certain locations, destructive (transformative?) Pluto also crosses these lines (see orange line).

The black circles also show active zones, but they are not quite as intense at the red circle and orange line zones. For example, the middle USA could have water issues (too much or not enough), or there could be significant events surrounding presidential candidates in those states.

Although these active zones generally put a region in the news, it is difficult to say exactly how they will demonstrate this heightened energy. So it is common practice to look at what is already going on in a region to interpolate what might happen. For example, Italy is in one of the hot zones, and economics and potential volcanoes are likely to be in the news. Also watch New Zealand and the South Pacific (especially Fiji), India, Spain, Portugal, and India.

When looking at these maps, it is also important to look at the equinox maps before and after the solstice, and eclipse paths. Due to space limitations and not wanting to overload you, I generally like to keep it simple.

The June 4th Lunar Eclipse can be seen in the Western USA and Canada, but you will need to go to the Pacific or eastern Australia if you want to see it in its entirety. A lunar eclipse is a full moon, so it tends to emotionally pull you apart to put you back together in a more integrated way.

This lunar eclipse is part of a Grand Mutable Cross. Mutable means adaptable, and includes the signs Gemini, Virgo, Sagittarius and Pisces. The moon in Sagittarius works with your belief systems to help you expand beyond perceived limitations. **It asks you to remember that life is an adventure.** The Sun and Venus (retrograde May 15-June 27, and crossing the face of the sun on June 6th) are in mental Gemini to help you open your mind to new ways of thinking. They are also aligned with the fixed star Rigel, a blue-white star in the foot of the Orion constellation. Stars that are in the feet of constellations have an interpretation of **bringing higher knowledge down into the earth plane to be used.**

Warrior Mars is in the process of completing its extra-long run through Virgo (see winter quarter column at www.astromark.us). **Finish cleaning up and organizing your life before it moves into Libra in early July.** Wounded healer Chiron is also in play, so find alternative strategies to relieve wherever you are suffering in this life.

Soul Rays for MAHATMA GANDHI

This Great Soul brought independence to India through his Seventh Soul Ray. A person activates their soul ray when they choose to serve a higher good beyond their small self. The 7th is the ray of *transmutation* (changing energy that is less than loving into Love). It is the energy of magic. A 7th Ray person Initiates a New Order. Gandhi's soul purpose was to transform worldly conditions.

Gandhi's Personality Ray was the 5th Ray of Concrete Knowledge and Science. He had a systematic approach to his work which was especially shown earlier in life as he studied to become an Oxford graduated attorney.

"Gandhi continues what the Buddha began, In the Buddha, the spirit of Love sets itself the task of creating different spiritual conditions in the world; in Gandhi it undertakes to transform all worldly conditions."

~Albert Schweitzer

(This quote reflects Gandhi's 7th Ray Soul)

What is a Seven Soul Ray consultation?

This reading uses esoteric astrology and methods to calculate the frequencies (rays) that you incarnated on in this life. You will learn about your soul and personality rays. This information is based in the channellings of the Tibetan Master Djwahl Kuhl through Alice A. Bailey. Understanding the ray upon which you have incarnated helps you to work more fully with your energies of soul service. This reading is best for people who have reduced the need to ask "what's in it for me?" and increased the need to know, "what is my soul purpose and spiritual service in this life?" This is an esoteric astrology consultation that looks at how you can bring your soul service into earthly form.

More information is at www.astromark.us

\$195 / 1½ hr. includes current transits and progressions.

Pictures associated with the Seven Rays. Ancient mystery school teaching and the work of Djwal Kuhl (books by Alice Bailey) tell us that seven universal rays come out of the Oneness to focalize their energies through our solar system. We choose to incarnate with specific rays being dominate within our makeup during this incarnation. See www.astromark.us for details on the Seven Soul Rays and Esoteric Astrology Consultation. Here are photos for your meditation altar to help you tune into these energies.
